

30 January 2006 (e-mail)

Dear Chairs:

IAIA'06 planning is going relatively smoothly, and abstracts are now coming in quickly. For those of you who are Session Chairs, please begin to conduct your reviews of those abstracts which are allocated to your sessions (if you haven't done so already). The authors are waiting for your clearance of their abstract before they finalize their papers or contributions. Please note that we have extended the deadline for presenting papers or poster abstracts to 15th February.

Kindly also assist in promoting the conference and make sure that you yourself is registered for the conference.

I will remind you again as we get closer to the deadlines, and particularly to the 28 of February which is when your reviews have to be completed and the authors notified.

Good luck, and if you need any clarification or advice we are here for you.

With our best regards

Arne Dalfelt
on behalf of the organizing committee
