

Job Title: International Environmental Impact Assessment (EIA) Specialist
Location: Gainesville, FL
Closing date: When Filled

Golder Associates Inc., an employee-owned environmental consulting firm, seeks an International Environmental Impact Assessment (EIA) Specialist in our Gainesville, Florida office.

Responsibilities: The Gainesville office is looking for a mid to senior level consultant to join the Environmental Assessment (EA) Group. The EA Group consists of successful environmental scientists and engineers. Golder Associates is a leader in EA practice, with involvement in the mining, oil and gas, power, nuclear and transportation sectors.

The successful applicant will be a member of a team that provides environmental, social and health impact assessment services to a broad range of clients around the world, including work for International Financial Institutions (IFIs).

The position of International EIA Specialist provides a unique opportunity within the Golder world and will appeal to the self-starter eager to immerse themselves in team-building and leadership, client service and development, and multi-disciplinary market development.

The position includes potential project involvement in environmental impact assessments, permitting, operations and environmental compliance. The candidate will be expected to:

- Develop, initiate and manage international projects.
- Supervise, train and mentor junior staff.
- Liaise with clients and develop business.
- Execute technical work in areas of expertise.
- Present and represent at meetings.
- Prepare proposals and reports.
- Perform advanced data analysis and application of methodologies.
- Provide senior review of technical reports, and proposals.

The International EIA Specialist will be responsible for marketing the EA Group's services externally as well as to work internally within a highly integrated technical, scientific and engineering team that provides service to our clients.

Competitive salary with an excellent benefits package. EOE/M/F/D/V.

Requirements: The successful candidate will have proven leadership and team building skills and experience, including:

- providing technical guidance, client development, project management and staff development/mentoring in support of new and ongoing services to clients;

- minimum of a Master of Science degree;
- 5-15 years experience in the environmental industry;
- substantial international EA experience, including direct experience in obtaining project approvals from IFIs;
- proven success developing and maintaining client relations;
- strong communications and writing skills;
- experience managing and coordinating large multi-disciplinary consulting projects;
- ability to thrive in an atmosphere that requires cooperation and team work to provide quality, solution-oriented consulting services to clients throughout the world,
- ability to travel for extensive periods;
- A strong business development background;
- Experience with power and oil and gas exploration and development; and
- Fluency in languages other than English (Spanish preferred).

Additional Information: Great opportunity in a growing office offering significant opportunities for the right candidate. Golder is employee-owned and committed to the professional personal growth of our staff. For the fifth year in a row, Golder Associates Inc. (GAI) has been named one of the “Best CE Firms to Work For” by CE News magazine, scoring 7th in the large company category and 26th on the overall top 50 chart.
