

Get There...With Our Exceptional Team

Environmental Planner

Yellowknife, NT, Ref. #2007-210

We are currently looking for an Intermediate level Environmental Planner in our Yellowknife, Northwest Territories office.

The successful candidate will be a self-starter demonstrating initiative in providing services to a variety of clients within several sectors and regulatory jurisdictions in northern Canada. As an integral member of our northern team, you will provide leadership in managing and executing a diverse range of projects and in addressing regulatory requirements.

Ideally you have a university degree in a relevant field of study as well as a minimum of five years experience in conducting comprehensive and screening level environmental impact assessments, preparing regulatory applications for approvals, land use permitting, public consultation, project management and sound working knowledge of territorial and federal /environmental legislation is required. Consulting experience would be an asset. The preferred candidate will be self-motivated and also possess the following attributes:

- Excellent organizational and communication skills
- Strong report writing skills
- Ability to work in a team environment
- Experience working with the federal and territorial regulatory agencies
- Strong project management skills
- Willingness to travel

The successful candidate will work in a team environment and will be responsible for contributing to environmental impact assessments and environmental permitting for a variety of clients in addition to a variety of other assignments. He/she will also be responsible for proposal and report writing and presentations.
