ANNUAL REPORT 2018

change
/CHānj/ verb
verb: change; 3rd person present: changes; past tense: changed
1. make or become different.
synonyms: alter, adjust, adapt, amend, customize, evolve, improve, modify, revise, reorganize, refine, transform, transfigure
IAIA’s MISSION

To provide the international forum for advancing innovation and communication of best practice in all forms of impact assessment so as to further the development of local, regional, and global capacity in impact assessment.

2018 MAIN EVENTS

ANNUAL CONFERENCE: IAIA18 ENVIRONMENTAL JUSTICE IN SOCIETIES IN TRANSITION

DURBAN, SOUTH AFRICA | 16-19 MAY 2018. Our host, IAIA-SA, welcomed 989 delegates from 83 countries at to discuss how we can close the development gap to create a more sustainable environment without also deepening inequality, creating “winners” who benefit and “losers” who bear the brunt of the impacts.

USING IMPACT ASSESSMENT TO ACHIEVE THE SDGS IN ASIA

KUCHING, MALAYSIA | 1-3 OCTOBER 2018. With 136 delegates attending from 13 countries, the theme of this special symposium targeted how voluntary IA tools and techniques, such as sustainability assessments, life cycle assessments, risk assessments, and materiality analysis, can be utilized in a region where regulatory efforts around IAs continue to experience challenges, with both the private and public sector arguing against further investment and business regulation.

IMPROVING IMPACT ASSESSMENT IN THE MINING SECTOR

LONDON, UNITED KINGDOM | 4-5 DECEMBER 2018. Representing 30 countries, this symposium brought together 127 representatives from mining companies, regulators, financial institutions, environmental and social consultants, and civil society to discuss critical and emerging issues in the mining sector. Proceedings will be released in early 2019.

LOOKING AHEAD

IAIA19: EVOLUTION OR REVOLUTION: WHERE NEXT FOR IMPACT ASSESSMENT?

BRISBANE, AUSTRALIA | 29 APRIL - 2 MAY 2019. This conference theme is deliberately provocative, inviting delegates to consider IA from different viewpoints. It calls for reflection on the imperatives for change if IA is to be part of another half-century of good practice environmental management.

IAIA IS TURNING 40!

2020 marks 40 years of global impact assessment leadership. Watch for upcoming symposia, special events, and our gala IAIA20 conference in Seville, Spain.
Impact assessment is at a critical juncture. It is now fifty years since the United States’ National Environmental Protection Act first enshrined environmental impact assessment into law. Yet the US today is home to some of the most regressive environmental policy positions on the planet. Emerging economies, especially China, are stepping into climate leadership. Yet China’s IA regulation and governance structures remain young and generally lag those of countries with longer IA histories. Latin American governments are beginning to drive IA requirements, taking over from development banks. Yet disasters like the Brazilian Brumadinho dam collapse remind us that work remains to improve the strength and enforceability of IA. Across the globe, similar transitions are visible.

With transitions come challenges, but also opportunities. IAIA, like the practice it supports, is at an important point in its life as an organization. As we prepare to enter our fourth decade as the world’s leading network on impact assessment, we are focused on three major aims: building on our strengths, raising our profile, and enacting our vision.

Building on our strengths

IAIA’s people are our biggest strength. I am regularly amazed and humbled at the professional work our members carry out and at the generosity of their volunteerism for IAIA. Professionally, IAIA members completed nearly 10,000 impact assessments between 2014-2017, working from 108 different countries. In 2018, IAIA members led the establishment of a professional development training program, hosted webinars, held Affiliate and Branch events, planned two international symposia and coordinated our very successful Durban conference.

This year also marked an important transition in IAIA’s staffing leadership, as Jill Baker moved on following four years of successful leadership as IAIA’s Executive Director. We are very pleased to have David Bancroft as our new Executive Director, supported by Deputy Executive Director Bridget John and our outstanding headquarters staff.

Raising our profile

IAIA’s international reputation is solid and well-respected. But we could be even better known and even more active. Events, like our 2018 symposia in Kuching, Malaysia, and London, UK, demonstrate that there is an appetite and a need for more leading IA guidance, more often. The success of our journal, Impact Assessment and Project Appraisal (IAPA), also reflects this situation. By academic measures, IAPA is increasing in audiences reached and in the impact of its publications on contemporary IA thinking.

The search for a new ED also provided an important opportunity to reflect on IAIA’s positioning as a world-leading organization. In 2018 IAIA opened a Washington, DC, office, placing us in close proximity to the partners and sponsors with whom we are working and will need to work in the future. Funding remains a central concern for IAIA as a non-profit organization. Through this new location, we aim to raise our profile, demonstrate our relevance, and ensure that IA remains represented on the global agenda.

Enacting our vision

Last year, IAIA members forecasted that impact assessments will be conducted more regularly with more community support in more sectors. But many also predicted that government support for IA may decline and noted that a lack of political will, shifting regulation, and internal schisms within IA practice pose particular challenges. Our vision is an IAIA that leads responses to these and other challenges, delivering the evidence, advice, and support necessary for the environmental, social, and economic decisions that will shape the future of our world.

Through its focus on these three aims, IAIA stands ready to turn a time of transition into one of opportunity and success.
It is wonderful to be part of IAIA, and to lead it through the next chapter of its history. In the short time I have been on board as Executive Director, everyone has made me feel so welcome. The statement that IAIA is like a “family” is certainly true, and I have felt the warmth of the membership through numerous one-on-one interactions. I have found IAIA to have a fully dedicated and engaged Board of Directors, which is essential for the growth of an organization, and very talented staff to assist in carrying out the IAIA mission.

As our President Sara Bice stated in her letter, “With transitions come challenges, but also opportunities.” It is my hope that I can combine my background in IA, my international experience, and my nonprofit management, along with the talented and diverse membership of IAIA, in order to bring the organization to the next level of success. By seizing on new opportunities and taking well-researched chances, together we can deliver on the promises of the future.

IAIA19’s “Evolution vs. Revolution: Where Next for Impact Assessment?” will be my first annual meeting. It is a very apt topic coming on the 50th anniversary of IA’s being recognized in law. Many of these issues have been discussed in the past, but bringing the focus together in one venue should provide a forum for IAIA to help to chart a path forward, and begin to answer the question, “What does the next 50 years of IA look like?”

Within that context, one of my initial challenges is to assist the Board of Directors in developing and implementing the 2019-2021 IAIA Strategic Plan. I am currently in the process of conducting a 360-degree SWOT analysis including perspectives from Board, staff, partners, sponsors, members, and non-members. While many of the detailed elements of the plan have yet to reveal themselves, it is my hope that the plan will include an increased emphasis on:

- Expanding membership numbers by increasing benefits and providing more market-based reasons for individuals and corporations to join.
- Diversifying income beyond conferences and symposia to include project funding from governments, corporations, foundations, and multi-lateral banks, as well as unrestricted funding from individuals.
- Increasing the profile of IAIA worldwide by becoming the voice of IA in traditional media and social media and being a proponent of IA to decision makers and the general public.

As an organization changes, evolves, or transitions, I feel it is important to make sure the organization stays true to its history and heritage. The roots of IAIA go back to 1981, and I believe the watch words for the organization moving forward should remain the same as those of our founders, when IAIA’s purpose was defined as “the betterment of society through the encouragement of improved policymaking processes concerning the analysis of the future consequences of present decisions.” These words define IAIA’s character.

As IAIA starts this new chapter in its history, with both the challenges to its future and the numerous chances for unparalleled success, it will be the wisdom of its founding character that will lead us though the minefield of change.

Or as I call it, the “David Bowie Ch-ch-ch Changes Model” for organizational transition.
BOARD OF DIRECTORS 2018-2019

SARA BICE  
President

MARLA ORENSTEIN

INNOVATION GRANTS

IAIA’s Innovation Grants are a competitive source of funds provided by the IAIA Board to encourage members, Sections, Branches, and Affiliates to undertake innovative projects to advance the strategic direction of IAIA. Between 2-4 grants are awarded each year, ranging from $2,000 - $5,000 each, and the projects must be achievable within a 12-month time frame. Due to an adjusted application timeline, two sets of grants were awarded in 2018. The 2019 Innovation Grants will open for submissions in August.

GRANTS AWARDED IN 2018

- Best practice principles for teaching impact assessment - $4,800
  Jenny Pope, Angus Morrison-Saunders (IAIA members)

- Innovations in cumulative effects assessment: An international state-of-the-art literature review - $3,690
  Jill Blakley (IAIA member)

- Spreading the word: Principles for human health in environmental impact assessment as per European Union EIA Directive - $4,988
  Ben Cave, Francesca Viliani, Filipe Silva, Yina Xiao (IAIA members)

- Creation of professionals’ National Environmental and Social Forum for Sierra Leone - $2,210
  Peter Jon Nelson, Ranita A.S. Koroma (IAIA members)

- Development of a protocol for environmental assessments for small-scale projects in disadvantaged communities: learning and experience from South Africa - $5,000
  Paul Lochner, Minnelise Levendal, Kelly Stroebel, Rirhandzu Marivate, Babalwa Marivate, Karabo Mashabela (members of IAIA’s South African affiliate)
TRAINING AND RESOURCES

TRAINING COURSES (ANNUAL CONFERENCE)

Training is an integral part of the IAIA Annual Conference. At IAIA18, 8 courses were offered on a wide range of topics.

- Public Participation in IA
- Using Organized Reasoning
- Multilevel Approach for Biodiversity
- Strategic Thinking in SEA/IA
- Human Rights and IA
- Resettlement as Part of IA
- Cumulative Effects Assessment
- Undertaking Inclusive ESIAs

PROFESSIONAL DEVELOPMENT PROGRAM (ONLINE)

IAIA provides world-class training courses in impact assessment in conjunction with its conferences. To complement the conference-based training courses, the online Professional Development Program (PDP) is a trainer-supported program in Environmental Impact Assessment (EIA). It is designed to provide EIA training for individuals involved in carrying out, reviewing, or otherwise participating in EIA studies of projects. It embraces a comprehensive definition of “environment” to include physical, biological, resource use, social, health, and economic aspects of the environment that may be affected by a project.

IMPACT ASSESSMENT AND PROJECT APPRAISAL JOURNAL HIGHLIGHTS

- Production schedule increased from four to six issues.

NEW AND UPDATED PUBLICATIONS

- Climate change best practice principles
- Gender key citations
- Climate change key citations
- Biodiversity key citations
- Biodiversity and ecology best practice principles
- SIA key citations
- Scoping FastTips
- Induced Impacts FastTips
- IAIA18 proceedings (papers)
- Mining symposium proceedings (in progress)

TREASURER’S REPORT

MORGAN HAUPTFLEISCH

There were many changes for IAIA in 2018, but what did not change was IAIA’s solid financial standing. Revenue increased by 4.4% while expenses decreased by 13.3%. This yielded a $103,000 positive change on the balance sheet and a $97,000 surplus on the income statement. The most prominent contributors to IAIA’s financial strength were IAIA18 and the London Mining Symposium, which offset slight losses from Kuching’s SDG symposium. Due to a timing issue, $31,500 in IAPA royalties for 2017 were not received in 2018 as usual, but are expected in 2019 instead.

In evaluating IAIA’s sources of revenue and expenses, membership dues account for only 11% of revenue. It is clear that IAIA relies heavily on proceeds from its annual conferences to continue to service its members and offer outreach such as special symposia, webinars, and publications. Plans are afoot to diversify revenue streams in the coming years.

Overall, IAIA’s investments remained flat in 2018, with growth of only 0.4%. However, given the sharp downturn in the US stock market at the end of 2018, this is a strong testament to IAIA’s astute financial portfolio. IAIA maintains a financial buffer equal to two years of operational expenses, and in 2018, IAIA was able to increase this buffer from $1.16 to $1.34 million to account for current expenses and staff dynamics.

Since its inception, IAIA has operated on the cash basis of accounting, recognizing revenue when it is received and expenses when they are paid. However, the Board agreed in November that IAIA has grown to a point where it should convert to accrual accounting for fiscal year 2019. This change means IAIA will now record revenue when it is earned and expenses when they are incurred, making it easier to monitor profitability, particularly considering conferences are planned so far into the future. This system is in line with modern best-practice financial stewardship.

IAIA staff and its Board of Directors continue to practice cost-effective operations, informed by detailed fund administration, while ensuring the organization is able to grow its reach and effectiveness in the global IA landscape.
